

# Hello I'm Chakib Baiker

22 years old.  
Chiffa, Blida  
**+213 7 83 34 83 15**  
**baikerchakib@gmail.com**

## Summary

I'm a full stack software engineer, I gathered a lot of experience with different technologies through building solo projects, obtaining freelance projects and different internships. And I'm looking for a full time job as a junior software engineer.

## Experience

AUGUST 2019 - OUTGOING

### **Upwork-** *Full stack web/mobile developer*

- Got my first contract as a full stack web developer using the MERN stack
- Tools used: back-end development using nodejs, SPAs using the React framework, passwordless authentication using magic links, external APIs like namecheap, Stripe, Google, Facebook, Twitter.

OCTOBER 2019 - DECEMBER 2019

### **Bixet, Dar El Beida-** *Web Developer Internship*

- Gained real world experience developing web applications using NodeJs
- Played a key role in developing the company's software development workflow (agile)
- Developed my teamwork skills

DECEMBER 2019

### **SARL Alger Irak, Sétif-** *Freelance desktop apps developer*

- Polished my C# skills
- Gathered experience building software that responds to very specific needs

MARCH 2019- JULY 2019

### **Dlala, Blida-** *Founder*

- My first solo project that went into production
- Met a lot of difficulties that transformed into valuable experience
